

Register My Storm Shelter

□

The **Emergency Management Office**□ receives and maintains storm shelter information within Comanche County from residents. They are informed of new or existing storm shelters by the public. The **Emergency Management Office**□ does not collect or receive this information from any other source. Below is information and instructions on storm shelter registration:

How the Information Will Be Used

After you give the **Emergency Management Office**□ your storm shelter information, it is plotted on a map using a DEQ software called Marplot. In the event of a disaster, the information may be given to the Incident Command conducting rescues. How the information is used will be up to the Incident Commander. They may decide not to use the information, or they may only use part. The **Emergency Management Office**□ will only assist them in their rescue efforts.

How to Register Your Storm Shelter

Over the Phone: You may call the **Emergency Management Office** at 580-355-0535 to register your storm shelter. Be prepared to provide the following information: your name, your address, phone number(s), an out of state contact and their phone number, and the location of the storm shelter (give the location based on the SW corner of the house/slab).

Online: You may fill out a [Storm Registration Form](#) online. Once you click "Submit", the information will be emailed to the **Emergency Management Office**. You will not get a confirmation that the email was received. If you want to make sure the information was received, call the **Emergency Management Office** at 580-355-0535.

If you have any questions, you may contact the **Emergency Management Office** at 580-355-0535.
