

With weather finally on our side, road crews began the work on Whitfield Road this week. Crews began work on the first mile north of Sterling. Crews will be working north, closing stretches of the roads in increments while they are worked on.

While working on Whitfield, crews will be recycling the bad areas and applying asphalt overlays to the areas that do not need to be recycled.

Please be aware of crews on the road and pay attention to all traffic signs. As always, thank you for your patience as we complete this project.
