

It seems as though the wet stuff has subsided for now, allowing the opportunity for our crews to begin the oil and chip process on a number of primed roads. The main focus this week will be in four areas: Ranger Estates, 60th Street, 75th Street and Coombs Road.

Crews will begin the week working in Ranger Estates, before moving onto a stretch of 60th from Bishop Road to Highway 7.

The week will wrap up with work on 75th Street, working from Bishop to Highway 7, as well as work on Coombs, from 90th heading west.
