

Hope everyone is getting 2014 started out the right way, and continuing to pursue those New Year's resolutions. The weather has limited the work road crews in the district can proceed with, but it doesn't mean we have slowed down. Crews have been working in a number of areas withing the district, cleaning out ditches and removing debris, as well as other routine mainenance. If we missed any in your area, please call 580-492-4328.

Tin horns are also being placed at the intersection of Cache Road and Bethel Road to improve conditions.

As always, please pay attention to signs and crews in the roads. Thank you for your continued patience!
