The Comanche County Court Clerk's office can now take payment online for certain court cases. If you visit OSCN.net you can click on the E-Payment button in the top right hand corner and start filling out the information necessary to pay court fees. Make sure you choose Comanche County from the drop down menu when prompted. In order to make a payment, you will need a case number. If you don't have the case number, you can search for it on the OSCN website by name or other identifiers. It is important to note:

-
- Not all cases can be paid through e-Payments. Payments may be made ONLY on CF, CM, TR and WL case types (Felony, Misdemeanor, Traffic and Wildlife) where all counts in the case have been fully disposed after January 1, 2005. E-Payments can be made on only one case at a time, and the case must have an outstanding balance due. Cases with a disposition date prior to January 1, 2005, cannot be paid through e-Payment.

-
- You may have other outstanding financial obligations with the court that cannot be paid through e-Payments. Failure to pay the full amount due on your case or payment plan could result in further court action or the issuance of a warrant.

-
- After you make an online payment, additional action by the local court may be necessary on your case. If a warrant has been issued in your case you must contact the court clerk after you make an online payment. An outstanding warrant will not be recalled automatically.

New E-Payment for Court Cases
